

Pennine

Composite Lid with Galvanised Frame

suitable for most types of access chamber

- * Lids made from strong, top quality glass-reinforced polyester
- * Two stainless steel bolts to restrict access for safety reasons.
- * Antislip surface to minimise possibility of accidental slipping.
- * Fully tested to EN124 B125 / D400 quality standards
- * Strong steel frame , hot dip galvanised for maximum longevity
- * No scrap value of lid, so reducing theft

Code	Product	Weight Kgs	Length mm	Width mm	Height mm
